Mayor Dawson asked if anyone would like to speak to the motion.

Councillor Diamond stated this is one of the best solutions for the lagoon and disposing of the product.

Mayor Dawson confirmed it is in the best interest for the town to have a second cell that would increase capacity going forward. Mayor stated that the provincial federal fund had more money that became available so therefore it would be in the towns best interest to apply asap, which is the reason why the town council called the special public meeting immediately.

Councillor Morrissey explained that the town is fortunate to be able to have this plan to put in a second cell which allows the town for expansion if required and needed in the future. The town would be investing into infrastructure rather than an expense.
